

FOR IMMEDIATE RELEASE

TRAQPak Integrates with FlightBridge for Streamlined FBO Reservation Capabilities

Cincinnati, OH, September 22, 2016

ARGUS International, Inc. (ARGUS) is pleased to announce the recent integration of TRAQPak FBO, the leading business aviation flight tracking software in North America, with FlightBridge's online reservation and communication tool.

"We are very excited to offer this integration with our TRAQPak FBO program," said Shirley Mason, Senior Vice President of ARGUS Market Intelligence. "This will be a huge benefit to FBOs who already use FlightBridge and TRAQPak FBO, and will be a great tool for any FBO that wants to improve efficiency and customer service by managing flight tracking and reservations all in one system."

"We are proud to partner with TRAQPak to closely integrate our platforms," said Dudley King, President of FlightBridge, Inc. "Our mission is to make the lives of FBO personnel easier, and support the best possible experience for aircraft operators, passengers and crew. Through our integration with TRAQPak, FBOs now have everything they need at their fingertips without having to jump back and forth between multiple systems. The team at ARGUS shares our commitment to enhancing the customer experience, and through our mutual integration efforts, we've made both of our platforms even more valuable to the FBOs that rely on us."

This FlightBridge online reservation integration will be offered as a complimentary service to TRAQPak FBO customers.

About FlightBridge

FlightBridge is the only online booking and communication tool tailored to private aviation. The platform supports FBO reservations, online hotel and rental car bookings, and electronic catering and car service requests. FlightBridge provides tools for both FBOs and Aircraft Operators to streamline logistics, reduce time on the phone, reduce errors, and raise service levels.
